■ Fund ■ MSCI Emerging Markets Index (net div., SGD)

Performance calculations are on a single pricing basis (taking into account any sales charge and redemption fee (if any)), on the assumption that dividends and distributions (if any) are reinvested net of all charges payable upon investment, in the currency of the relevant share class. Performance information is provided by Dimensional Fund Advisors, as of the date of the material unless otherwise specified. To obtain performance data current to the most recent month-end, contact your financial advisor. Average annual total returns include reinvestment of dividends and capital gains. The index is not available for direct investment, therefore its performance does not reflect the expenses associated with the management of an actual fund. The Fund is actively managed and is not managed in reference to a benchmark. The index is shown for comparative purposes only, and the comparison is made on a bid-to-bid basis. **Performance data shown represents past performance and is not a guarantee of future results. Current performance may be higher or lower than the performance shown. Performance may increase or decrease as a result of currency fluctuations. The investment return and principal value of an investment may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original value. There is no guarantee strategies will be successful. Diversification neither assures a profit nor guarantees against loss in a declining market.**
